ADVANCED MINIMALLY INVASIVE PEDIATRIC SURGERY

International workshop and hands-on course

15 - 16 November 2024 | Berlin
Germany

Endorsed by:

Dear Colleagues,

As minimally invasive techniques become the standard in pediatric surgery, practical training is crucial. We invite you to a hands-on workshop focused on these techniques, hosted at the Aesculap Academy in Berlin. You'll learn core skills like suturing and exposure on realistic models, advancing to complex procedures such as fundoplication and nephrectomy.

This course is a unique opportunity to enhance your skills in a state-of-the-art facility, ensuring you're prepared for the demands of modern pediatric surgery. Join us for an invaluable experience that combines theoretical knowledge with practical application.

PREFACE

In our exclusive workshop with a very limited number of delegates, all participants will have the unparalleled opportunity to be mentored by leading experts in minimally invasive surgery. This ensures an ideal learning environment, where every participant gets ample attention and guidance. The workshop will be a fertile ground for in-depth discussions, allowing for a rich exchange of ideas, techniques, and perspectives. Such interactions aim to illuminate the diverse approaches and principles applied by surgeons worldwide.

This prestigious event is endorsed by the European Pediatric Surgeons Association (EUPSA), the European Society of Paediatric Endoscopic Surgeons (ESPES), and enjoys the support of the German Association of Pediatric Surgeons, along with its Workgroup on Minimally Invasive Pediatric Surgery. Join us for a few transformative days in Berlin, where you'll not only advance your skills but also expand your surgical perspective.

We're excited to meet you and look forward to welcoming you to Berlin.

Best regards

Martin Lacher

Chairman of Pediatric Surgery, University of Leipzig

PROGRAM

- Two day hands-on course on living rats and a chicken model
- Specific anatomy, basic techniques of access, exposure, suturing and knotting in small spaces
- Fundoplication, nephrectomy, splenectomy, bowel anastomosis, diaphragmatic reconstruction, esophageal anastomosis
- Full equipment and more than one expert for every two operation tables
- Video presentations and discussion of specific operations by faculty members

DATE

Berlin 15 - 16 November 2024

The course starts at 8.00 am on day 1 and ends at 5.30 pm on day 2.

COURSE FEE

- 1,550.00 Euro incl. VAT
- Special price for the members of the EUPSA or ESPES: 1,500.00 Euro incl. VAT

including course documentation, food & beverages during the course as well as hotel accommodation for 2 nights.

Your registration will be valid upon receipt of a written confirmation. An invoice will be sent to you approximately 4 weeks prior to the course.

The Aesculap Academy® connects people who want to develop their skills in the healthcare sector. Medical excellence is redefined with innovative discoveries and developments - in the operating room, clinics, outpatient care and in healthcare management.

CONNECT. EXCHANGE. ENABLE.

We connect these healthcare professionals through advances in new technologies and methods so that they can exchange insights across our global network. We connect people face-to-face and digitally so that they can share experiences, perspectives, and theories.

Everyday life in hospitals and clinics can be challenging. Our goal is to empower the individuals that work in this sector with innovative, real-life education concepts. These concepts comprise cutting-edge research, improved simulation, insightful training, and significant content that shapes the future of medical care worldwide.
